PROFILE

A dedicated and highly skilled automotive technician with over a decade of experience in diagnosing, servicing, and repairing Mercedes-Benz vehicles. Demonstrated proficiency in managing workshop operations, overseeing administrative tasks, and providing leadership to ensure the efficient functioning of automotive service centers. Extensive expertise in fault diagnosis and repairs of mechanical, electrical, and air conditioning systems, with a keen eye for detail and a commitment to delivering top-quality workmanship. Experienced in training and mentoring apprentices, as well as staying updated on the latest advancements in automotive technology through continuous learning and professional development. Adept at communication and problem-solving, with a strong track record of achieving results and exceeding customer expectations. Passionate about delivering excellence in service while continuously seeking opportunities for personal and professional growth.

Skills

- Experience with diagnostic procedures and accurate repair recommendations.
- Efficiency and accuracy in performing vehicle repairs and maintenance.
- Strong communication skills with both customers and team members.
- Ability to document work thoroughly and adhere to OEM standards.
- Proficiency in operating electronic diagnostic equipment.
- Professional demeanor, strong work ethic, and excellent organizational skills.
- Valid driver's license and safe driving history.
- Ability to work in indoor/outdoor shop environments and handle physically demanding tasks.
- Experience with automotive tools and equipment.
- Commitment to continuous learning and professional development.

KEY ACHIEVEMENTS

- Successfully established and managed the operations of Three Star Executive Motors since September 2020, ensuring smooth administrative and technical operations of the company.
- Supervised and conducted general fault diagnosis and repairs of various systems including mechanical, electrical, roof systems, telematics systems, assistance systems, and SRS systems, consistently meeting or exceeding customer satisfaction targets.
- Oversaw the assembly of new vehicles, including the complete floor, cockpit, engine accessories, and wiring harness, ensuring adherence to manufacturer standards and specifications.
- Played a key role in training and mentoring apprentices within Mercedes Benz Ronnies Motors, contributing to the development of skilled technicians and fostering a culture of continuous learning.

- Successfully diagnosed and repaired high voltage vehicles as a Diagnostic and System Automotive Electrical Technician at Mercedes Benz Ronnies Motors, demonstrating proficiency in advanced automotive technologies.
- Achieved certifications in Mercedes Benz System Technician and Maintenance Technician from reputable institutions, reflecting a commitment to professional development and staying updated on the latest advancements in automotive technology.
